

My Easy PC we are here to help you... - Google Analytics goal set up

Written by Administrator

You can set up Analytics Goals to monitor how your users interact with your website. This is especially valuable for online businesses with shopping carts or eCommerce sites.

- Login to you Google Analytics account
- Click on Admin from the top menu

- Under View menu click Goals

- Under Goals you should be able to see all the current goal set up
- To create a new click on the +NEW GOAL button

A screenshot of the Google Analytics Goals list. At the top left, there is a '+ NEW GOAL' button. The table below lists several goals with their names, IDs, conversion counts, and recording status.

Goal	Id	Past 7 day conversions	Recording	share
Account View	Goal ID 5 / Goal Set 1	3	<input checked="" type="checkbox"/>	share
Place an order - completed order received!	Goal ID 4 / Goal Set 1	0	<input type="checkbox"/>	share
Place an order - completed order - received	Goal ID 3 / Goal Set 1	0	<input checked="" type="checkbox"/>	share
Place an order-Funnel Checkout	Goal ID 2 / Goal Set 1	2	<input checked="" type="checkbox"/>	share
Place an order-start Checkout	Goal ID 1 / Goal Set 1	0	<input type="checkbox"/>	share

- Select the most appropriate goal. e.g. for an shopping cart site select Place an order, for a simple website select Contact us or Custom.

Goal setup Edit

Template: Contact us

Goal description

Name

Contact us Goal ID 6 / Goal Set 2

Type

- Destination ec: thanks.html
- Duration ec: 5 minutes or more
- Pages/Screens per session ec: 3 pages
- Event ec: played a video

Next step Cancel

Goal details

Goal Details are the most important.

Goal description Edit

Name: Contact us

Goal type: Destination

Goal details

Destination

Equals to Case sensitive

For example, use My Screen for an app and /thanks.html instead of www.example.com/thanks.html for a web page.

Value OPTIONAL

Off Assign a monetary value to the conversion.

Funnel OPTIONAL

Off

Specify a path you expect traffic to take towards the destination. Use it to analyze the entrance and exit points that impact your Goal.

Verify this Goal See how often this Goal would have converted based on your data from the past 7 days.

Create Goal Cancel

- In the Destination dropdown you can select several options. If know the target URL is fixed or static then Select Equals to enter that URL.

Destination

Equals to in app and /thanks.html instead of www.example.com/

- Equals to
- Begins with
- Regular expression value to the conversion.

Written by Administrator

e.g.

Destination

Equals to

For example, use My Screen for an app and /thankyou.html instead of www.e

- If the target URL is dynamic such as when a payment is made or a thank you page is display that dynamically updates the URL for each instance then Select Regular expression or Begins with enter that URL only up to the static end.

e.g.

Destination

Begins with

For example, use My Screen for an app and /thankyou.html instead of www.e

- You can set up a Funnel which is optional. The funnel will tell you how your users arrive at the destination URL. Example for a shopping cart you funnel may be view cart or cart.

e.g.

Funnel OPTIONAL

On

Use an app screen name string or a web page URL for each step. For example, use My Screen for an app and /thankyou.html instead of www.example.com/thankyou.html for a web page.

Step	Name	Screen/Page	Required?
1	Checkout	/checkout/	<input type="checkbox"/> Yes
