

The below instructions will detail how to edit or create a Zoho CRM workflow rule to send emails automatically when a new lead is created or a when leads are imported via the API call.

- Login into Zoho CRM and click on Setup

Activities

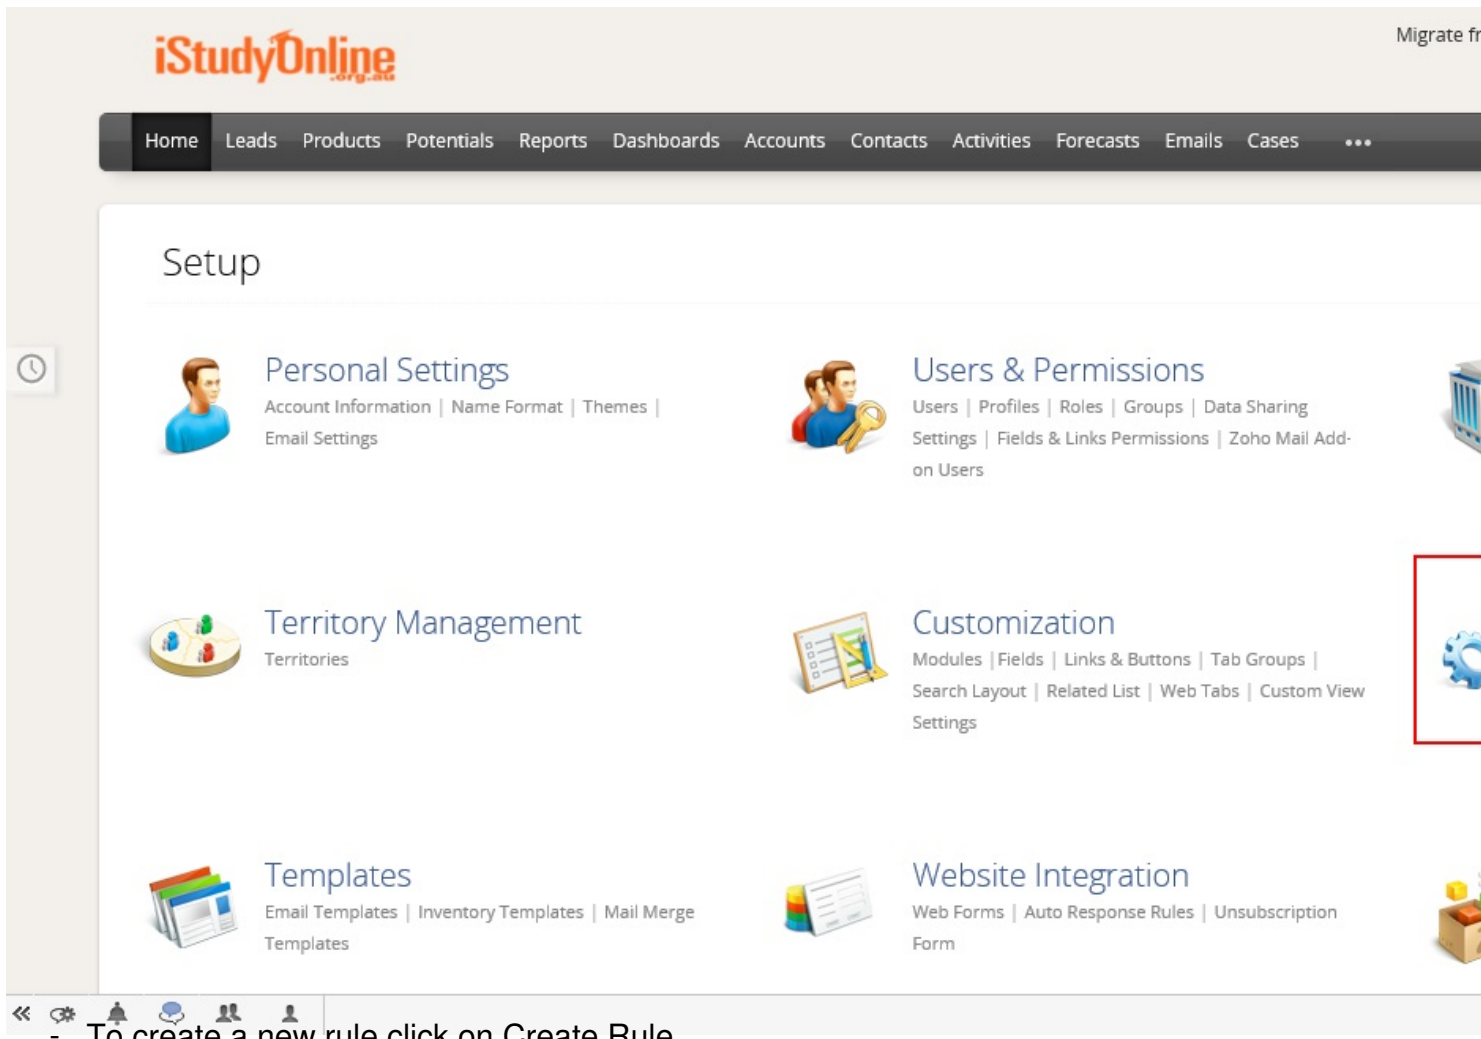

Subject	Activity Type	From	Due Date	Status	Priority
Call	Calls				Normal
Call	Calls				Normal
call	Calls			Scheduled	
Call	Calls			Scheduled	
Call	Calls			Scheduled	

Open Tasks

Subject	Due Date	Status	Priority
Send email again	22/09/2015	Not Started	High

<https://crm.zoho.com/crm/ShowTab.do?module=Setup>

- Under Automation click on Workflow

The screenshot shows the Zoho CRM Setup page. At the top, there is a navigation bar with the following items: Home, Leads, Products, Potentials, Reports, Dashboards, Accounts, Contacts, Activities, Forecasts, Emails, Cases, and a menu icon. The main content area is titled "Setup" and contains six categories of settings, each with an icon and a list of sub-items:

- Personal Settings**: Account Information | Name Format | Themes | Email Settings
- Users & Permissions**: Users | Profiles | Roles | Groups | Data Sharing Settings | Fields & Links Permissions | Zoho Mail Add-on Users
- Territory Management**: Territories
- Customization**: Modules | Fields | Links & Buttons | Tab Groups | Search Layout | Related List | Web Tabs | Custom View Settings
- Templates**: Email Templates | Inventory Templates | Mail Merge Templates
- Website Integration**: Web Forms | Auto Response Rules | Unsubscription Form

At the bottom of the page, there is a footer with a series of icons: a double left arrow, a gear, a bell, a globe, a group of people, and a single person. Below these icons is the text: - To create a new rule click on Create Rule

The screenshot shows the Zoho CRM Automation interface. On the left is a 'Setup' sidebar with categories like Personal Settings, Users & Permissions, Organization Settings, Territory Management, Customization, Automation (selected), Templates, Website Integration, Apps & Add-ons, and Developer Space. The main content area is titled 'Automation' and has tabs for Workflow, Assignment Rules, Case Escalation Rules, and Approval Processes. Under the 'Workflow' tab, there are sub-tabs for Rules, Alerts, Tasks, Field Updates, Webhooks, and Custom Functions. The 'Rules' sub-tab is active, showing 'Workflow Rules'. A 'Create Rule' button is highlighted with a red box. Below it, there are filters for 'List of Rules: All Modules' and 'Status: All', along with a 'Reorder Rules' button. A table lists the rules:

Rule Name	Module	Execute On	Timed Actions	Alerts	Tasks	Updates
Big Deal Rule	Potentials	Create or Edit	0	1	0	0
Thank you for re...	Leads	Create	0	1	0	0

rule - Under Automation, click on the Workflow Rules icon. In the Workflow Rules page, select the Rule Name and click on the

The screenshot shows the Zoho CRM interface for editing an email template. On the left is a sidebar with navigation options: Apps & Add-ons, Developer Space, Data Administration, Subscription Manager, and Social Settings. The main area is titled "Email Template Body" and contains a text box with the content "Thank you for registering". Below this is a "Footer" section with an empty text box. At the bottom right of the main area, there are four buttons: "Edit" (highlighted with a red box), "Clone", "Delete", and "Go Back".

« Edit the email template with WYSIWYG editor or in HTML
