

If you need to install a Order Comment box to be installed in Magento where a customer can leave a card message or a comment with the order you need to install Brainvire Order Comment | Order Comment Magento Extension. You can get it [here](http://www.magentocommerce.com/magento-connect/brainvire-order-comment-order-comment-magento-extension.html) <http://www.magentocommerce.com/magento-connect/brainvire-order-comment-order-comment-magento-extension.html>

Once you have installed the extension to modify the label and heading in the shopping cart and in the Magento Admin follow the below instructions:

1. Navigate to your_MagentoSite

2. Find the file in folder agreements.phtml

appdesignfrontenddefaultdefaulttemplateordercommentcheckout agreements.phtml

On ~ line 16

Written by Administrator

```
<label for="ordercomment-comment"><?php echo Mage::helper('ordercomment')->__('Order  
Comment') ?></label>
```

3. change the Mage::helper('ordercomment') to Mage::helper (' Card Message [+ delivery instructions]') as below

```
<label for="ordercomment-comment"><?php echo Mage::helper('ordercomment')->__('Card  
Message [+ delivery instructions]') ?></label>
```

```
C:\xampp\htdocs\scentofaflower\app\code\community\Brainvire\OrderComment\Block\Adminhtml\Sales\Order\Grid.php - Notepad++
File Edit Search View Encoding Language Settings Macro Run Plugins Window ?
GoogleApps_First contact1.html Website.Unavailable.html Brainvire_OrderComment.xml Grid.php Grid.php Agreements.php agreements.phtml
25     protected function _getCollectionClass()
26     {
27         return 'ordercomment/order_grid_collection';
28     }
29
30     /**
31     * Prepare grid columns
32     *
33     * @return Brainvire_OrderComment_Block_Adminhtml_Sales_Order_Grid
34     */
35     protected function _prepareColumns()
36     {
37         parent::_prepareColumns();
38
39         // Add order comment to grid
40         $this->addColumn('ordercomment', array(
41             'header' => Mage::helper('ordercomment')->__( 'Card Message [+ delivery instructions]'),
42             'index'   => 'ordercomment',
43             'filter_index' => 'ordercomment_table.comment',
44         ));
45
46         // Fix integrity constraint violation in SELECT
47         foreach ($this->_ambiguousColumns as $index) {
48             if (isset($this->_columns[$index])) {
49                 $this->_columns[$index]->setFilterIndex('main_table.' . $index);
50             }
51         }
52
53         return $this;
54     }
55
56     /**
57     * Prepare grid massactions
58     */
```

This will change the order comment label and heading in admin to 'Card Message [+ delivery instructions]'
