

Create the contact form in the Contact Form 7

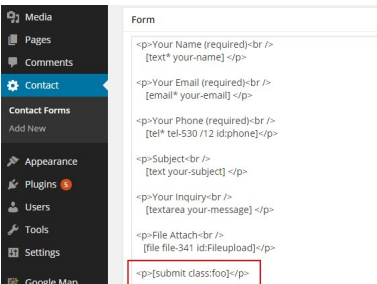

To create a custom submit button click Generate Tag and select Submit button

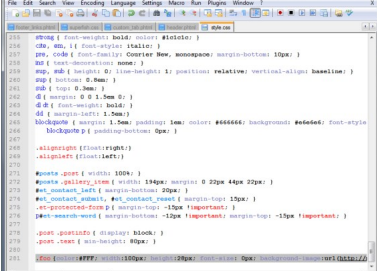

The screenshot shows a 'Generate Tag' dialog box with the title 'Submit button'. It contains three input fields: 'id (optional)', 'Label (optional)', and 'class (optional)'. The 'class (optional)' field is highlighted with a red border and contains the text 'foo'. Below the input fields, there is a text area that says 'Copy this code and paste it into the form left.' and contains the code `[submit class=foo]`.

In the class option enter a class name e.g. foo
